## PURPOSE AND APPLICATION

The conduct of all parties in the construction and development of **Mount Royal Golf & Country Estate (Mount Royal)** must benefit the quality of lifestyle and exclusive character of Mount Royal. The purpose of the BUILDING CONDUCT RULES (the RULES) is the regulation of all construction related activity with this in mind.

The RULES shall be constituted in terms of the Constitution of the Mount Royal Home Owner's Association (the ASSOCIATION) and are to be read in terms of the standard OFFER TO PURCHASE and associated documents, with particular reference to the Environmental Management Plans (EMP's).

The conditions governing building activity, that are set out in this document are rules adopted by the Association and are therefore binding on all OWNERS. Furthermore, all OWNERS are obliged to ensure that their Building Contractors (the CONTRACTORS) and/or sub-contractors are made aware of the conditions and comply strictly with them.

The ASSOCIATION shall appoint the ESTATE MANAGEMENT with the mandate to represent the common interests through maintaining a presence on the Estate and implementing the RULES.

The RULES are subject to such changes from time to time that the ASSOCIATION in its sole discretion deems to the benefit of Mount Royal, and such changes shall be immediately binding as soon as they are published on the Mount Royal website [www.mountroyalestate.co.za](http://www.mountroyalestate.co.za). The formulation of the RULES and therefore their interpretation shall be at the sole discretion of the ASSOCIATION. In the case of doubt or uncertainty regarding interpretation of the RULES the OWNER or CONTRACTOR shall approach the ESTATE MANAGEMENT for clarification.

Owners are therefore required to include the conditions in their entirety in any building contract concluded in respect of property on the Estate. This may be by attaching the RULES to the building contract, or by making explicit reference to the Rules in the contract.

The OWNER and the CONTRACTOR shall be jointly and severally liable for compliance with the regulations contained herein. The Contractor shall be responsible for the activities of all his sub-contractors and suppliers. To this end he is expected to have competent supervision on site at all times with sufficient authority to control the activities of all his employees and those of his sub-contractors and suppliers and in particular the manner in which deliveries are made to the site.

The ESTATE MANAGEMENT has the right to suspend any building activity in contravention of any of the conditions and accepts no liability whatsoever for any losses sustained by an OWNER as a result thereof.

The ASSOCIATION reserves the right to relax any of the provisions of this document where it in its sole discretion decides that special circumstances require it. Any concessions so made will in no way prejudice the right of the Association to enforce these regulations to the full extent where required.

A checklist has been compiled (ADDENDUM A) for the CONTRACTOR prior to starting any works at Mount Royal.

THE RULES ARE TO BE READ IN CONJUNCTION WITH THE ENVIRONMENTAL MANAGEMENT PLAN FOR THE BUILT ENVIRONMENT (Copy can be requested from the ESTATE MANAGEMENT).
